

Meet The Largest, Most Precise Pipe Clamps Ever Made

Unmatched Size, Accuracy and Speed

With the ability to measure pipes up to 4 $\frac{1}{8}$ " , the NEW JL3LC Job Link® System Premium Large Pipe Clamp and TC48 Large Pipe Clamp Type K Thermocouple are large and in charge – a perfect match for any commercial or refrigeration HVACR pro in search of lightning-fast precision readings without the inconvenience of straps, tapes or zip ties.

- Widest industry pipe clamp range in the industry, suitable for pipes $\frac{3}{4}$ " to 4 $\frac{1}{8}$ " in diameter.
- Rapid Rail™ Sensor Technology delivers extremely accurate readings without interference from ambient air, dust, paint, corrosion or moisture on the pipe surface – which can throw readings off by as much as 3-4°.
- Single-hand operation with comfortable, ergonomic grip means no more struggling with straps, zip ties and tapes!
- Fast set-up and instant reaction time; stabilizes in seconds unlike the competitors which can take several minutes.
- Waterproof, rugged and built durable to withstand the rigors of field use + compact design for easy storage.
